### COVID-19 OUTREACH

*Displaced families in Ruai, Nairobi receiving food donations from Prince of Peace Foundation. [Photo: Courtesy]*

The ongoing COVID-19 (coronavirus) crisis has made the lives of poor and the most vulnerable households in Kenya unbearable. Most of them, particularly in urban centres who depend on self-employment and informal wage, and those who have lost their jobs are unable to get through the crisis.

The Prince of Peace Foundation, through your support have assisted the poor in Nairobi County in Ruai and the environs such as Kiambu through the acts of kindness and encouraged them through prayer and God's word.

Despite the negative effects of COVID-19, we believe that it is an opportunity for the Body of Christ to step forward and offer a helping hand towards lessening the negative effects.

We are glad to inform you that through our team in Nairobi office, we have distributed foodstuffs especially to the families in Ruai who were evicted from their houses. We also distributed foodstuffs to some families in Kiambu.

As we move on, we are more grateful to our Partners who have continually been supporting our mission with their prayers and donations. Thank you and continued blessings!

**Apostle Samuel Mbutia,  
Director Prince of Peace Foundation**

## About Us

Prince of Peace Foundation is a Non-Profit organization with the vision of transforming in children, families, communities, and nations through Christian healing, reconciliation, and restoration. Founded and based in Kenya with over 10 years in Christian service, we believe that peace is the foundation of society and that transformation must start with our children.

## Support our Good Cause

We humbly request for your kind support towards this mission which is in line with the Great Commission of Jesus Christ.
